

PQM 201B

INTERMEDIATE PRODUCTION, QUALITY AND MANUFACTURING, PART B

This journeyman-level course requires students to apply the manufacturing and quality planning processes and techniques learned in PQM 201A. Students will work in integrated product teams to develop manufacturing and quality plans, apply lean techniques, apply cost estimating techniques, and make progress payment recommendations based on completion of a physical progress review. Course content includes the contracting aspects of the job; planning for manufacturing and quality; lean concepts; material control; and technical, ethical, and quality issues.

Objectives: Students who successfully complete this course will be able to:

- apply production and quality requirements of the Federal Acquisition Regulation (FAR) and Defense FAR Supplement (DFARS);
- prepare and review integrated management plans for manufacturing and quality requirements;
- audit a supplier's quality manual against a commercial quality standard; and
- apply the concepts of lean manufacturing, theory of constraints, and other production management tools.

Who Should Attend: This course is required for Level II certification in Production, Quality, and Manufacturing; it is also for production, quality, or engineering personnel providing pre- or post-award technical support.

Prerequisite: PQM 201A

Recommended: At least 2 years of production or quality management experience after Level I certification.

Length: 5 class days

Method of Delivery: Resident/Local

PQM 202

COMMERCIAL AND NONDEVELOPMENTAL ITEM ACQUISITION COURSE FOR TECHNICAL PERSONNEL

The Commercial and Nondevelopmental Item (C/NDI) Acquisition Course for Technical Personnel focuses on tools and techniques used by engineering, logistics, and related technical personnel for identifying and evaluating C/NDI alternatives throughout the acquisition process. It provides instruction on requirements definition, acquisition strategy development, support planning, and the use of market acceptability criteria for C/NDI acquisitions.

Objectives: Students who successfully complete this course will be able to:

- employ market research to determine the appropriateness of commercial or nondevelopmental items for satisfying users' needs; and
- plan an acquisition strategy for the management of commercial and nondevelopmental items.

Who Should Attend: This assignment-specific course is designed for acquisition personnel who are in the Program Management; Systems Planning, Research, Development and Engineering; Life Cycle Logistics; Test and Evaluation; Production, Quality and Manufacturing; and related career fields in planning and managing the acquisition of C/NDIs.

Prerequisite: None
